APPLICANT & ROLE DETAILS

Position Required: Junior Full-Stack Developer
Total IT Experiences: 2 Years
Business Knowledge: Yes
Availability: Immediately
Present Salary: N/A (Entry Level)
Salary Expectation: Negotiable
Work Areas: Local (Gauteng) – Yes | Relocation – Yes | Overseas/Remote – Yes

PROFESSIONAL SUMMARY

Junior Full-Stack Developer with approximately two years of hands-on experience designing, developing, and deploying web-based applications using Python and Django. Trained through industry-aligned programmes including the FNB App Academy Full Stack Development certification, with practical exposure to RESTful APIs, authentication mechanisms, database-driven systems, and responsive user interfaces. Demonstrates a strong understanding of the software development lifecycle (SDLC), clean code principles, and real-world problem solving within delivery-focused environments.

TECHNICAL SKILLS MATRIX

Programming Languages

Technology	Months	Level	Notes
Python	24	3	Primary backend language
JavaScript	18	2	Frontend logic & interactivity
HTML & CSS	24	4	Responsive UI development
C#	6	1	Foundational exposure
SQL	6	1	Basic querying knowledge

Frameworks & Libraries

Technology	Months	Level	Notes
Django	24	3	MVC, ORM, authentication
Django REST Framework	12	2	REST API development
Bootstrap / Tailwind	18	4	UI & responsiveness

Databases

Technology	Months	Level	Notes
SQLite	18	2	Development database
PostgreSQL	12	2	Production-ready design

Tools & Deployment

Tool	Months	Level	Notes
Git & GitHub	24	3	Version control
Render	12	3	Cloud deployment
Gunicorn	12	3	Application server
Whitenoise	12	3	Static file handling

Operating Systems

OS	Months	Level	Notes
Windows	24	Comfortable	Primary dev OS

PROJECT EXPERIENCE

RentARoom — Property Listing Platform

Full-stack platform enabling landlords to manage rental listings while allowing tenants to browse, search, and filter available rooms. Implemented role-based authentication, database models, image uploads, dashboards, and cloud deployment. Key challenges included managing user roles and resolving deployment issues, addressed through Django best practices, documentation-driven development, and iterative testing.

KiddiesJoy — Daycare Management System

Web-based system developed to digitise daycare operations, parent communication, and child records. Implemented secure authentication, REST APIs, responsive UI, and strict data access controls. Worked with real users, reinforcing the importance of usability, data privacy, and reliable system behaviour.

Portfolio Management Platform

Full-stack application for managing and showcasing software projects. Designed RESTful APIs, integrated frontend consumption, and configured PostgreSQL for production environments. Focused on scalable architecture and clean backend design.

WORK EXPERIENCE

Sales Consultant — Volpes (2024–2025)

Client engagement, solution-based selling, objection handling, and communication skills transferable to client-facing technical environments.

EDUCATION & CERTIFICATIONS

Full Stack Development — FNB App Academy (2025)

PCEP Certified Python Programmer — *In Progress*

Matric (NSC Bachelor's Pass) — Lehlabile Secondary School (2015)
